Affirmative Action

UMR wants more minority students

By KEVIN FARRELL

In the future the University of Missouri will strive to increase the percentage of minority students and faculty on campus.

After a federal study by the Office of Civil Rights the University of Missouri is accused of discrimination on three of its campuses. The Universities of Missouri at Columbia and Rolla as well as Southeast Missouri State were required to submit new Affirmative Action plans to the Office of Civil Rights in Kansas City.

Failure to comply could have meant the loss of

millions of dollars in federal aid to the University of Missouri.

The study indicates that the percentage of blacks on these campuses falls far short of the fraction of blacks in the State of Missouri. In UMR's report to the Office of Civil Rights it states: "The University of Missouri-Rolla does not discriminate in its selection policies for students, faculty or staff." The report explains that UMR is a regional institution existing in a county where blacks comprise only 0.66% of the population.

This report includes plans

to increase black student enrollment. The university has set goals for increases in black enrollments and degrees awarded to blacks for the next three years. Increased recruiting of black graduate and undergraduate students will be implemented to achieve these goals.

Goals are also set for increasing the percentage of black faculty. Currently, faculty members actively recruit potential black colleagues at their professional meetings. In addition, black faculty will be sought through advertisements placed in the

Affirmative Action Register and by increased contact with predominantly black colleges.

The presence of foreign students on campus does not offset the absence of blacks. According to Katherine Jenks, Assistant to the Chancellor for Affirmative Action and Public Functions, The Office of Civil Rights considers these individuals to be foreign nationals rather than a minority.

In summary the report states that, "The University of Missouri-Rolla will make every effort to increase its percentage of black students and to attract black faculty and staff to its campus."

UMR parking lots

Permits available at preregistration

By JOHN F. LUTH

Under a new plan proposed by the University's Traffic Safety Committee, applications for parking permits in UMR lots for the upcoming school year will be available at preregistration for the Fall semester. This plan is expected to be approved by Chancellor Marchello and the Board of Curators and thus be in effect this preregistration.

There are two categories of permits available. Permits for Silver lots (generally, those between State Street and Hwy. 63, and also those south of 10th Street) will be sold for \$12. There are 649 Silver permits available. Permits for Gold lots (north of 14th Street and east of 10th Street and the lot just south of the Chemical Engineering Building) will be sold for \$18 apiece. There are 444 Gold permits available.

Originally, faculty and staff applied for the permits in April or May. Students had to wait until the Fall registration and often in very long lines in order to obtain a permit. Frank G. Walters, Chairman of the University's Traffic Safety Committee, said the committee felt the process was "ridiculous" and needed to be changed.

During the coming preregistration applications will be available at the Registrar's Office. The applications would be filled out and returned to the office by any interested applicant before the end of preregistration.

When all the applications are in, the cards will be sorted according to the priority which follows: 1) handicapped, 2) faculty, 3) non-faculty employees, 4) Ph.D. candidates, 5)

master's candidates, 6) seniors, 7) juniors, 8) sophomores, 9) freshmen. Students of the same level will be given priority according to their number of credit hours achieved.

If a student is allowed a permit the bill will be sent to him with his other fees. The permit fees will be due the same time as the other fees but cannot be deferred, even if the student's tuition is deferred because of a delayed scholarship payment. Failure to pay the permit on time will mean that person will not be sold a permit for that school year. The highest person on the waiting list would then be sold a permit.

Usually the permits are oversold by about ten to twenty percent for optimum use of the lots. This year the amount of oversell will be reserved until the beginning of the school year for cases such as handicapped and new faculty.

Walters said he felt the new plan is "a much better system" and adds "I think it will work ... It will cut down on staff time ... and on students' time" since students won't have to wait many hours in long lines at the beginning of the year.

First in the Midwest

Comp. Sci. offers robotics course

SOURCE: OPI

Robots may have forsaken the world of science fiction for the classrooms of the University of Missouri-Rolla, but the scenario is a far cry from "Star Wars."

For these robots, which are the subject of a spring semester class (Computer Science 301A "Introduction to Robotic Systems") at UMR, are for industrial use and bear little resemblance to the stereotyped notion of a robot.

"I spent the first class period clearing up any misconceptions the students might have had about the nature of the subject matter," said Dr. Peter Ho, UMR associate professor of computer science and course instructor. "These robots are not at all like what you'd see in 'Star Wars' or read about in a science fiction novel. That's all in the realm of fantasy. We're dealing with reality."

And the reality is that these robots are machines that can be programmed to perform tasks such as painting, welding and hazardous waste disposal. They can do these jobs 24 hours a day in the most hostile environments with tremendous precision and accuracy. This, in turn, will allow industry to increase production and improve product quality while

lowering its costs.

In addition to introducing students to the world of robotics, the course also has helped place UMR in a leadership role in the field.

"This is the first time that this course has been offered at UMR," Ho said, "and to my knowledge it's one of the first such courses to be taught in the Midwest."

The course features a general discussion of the need for robots, the economics involved and the current state of the art. In addition, students in the course also will learn about robotic motion and how to control it through computer programs.

According to Ho, student response to the course has been excellent.

"When I initially proposed the course," he said, "I thought I'd probably attract four or five students. So I was quite surprised by the response it received."

Forty-four students enrolled in the course, and, although a majority of them are computer science majors, 10 electrical engineering, five mechanical engineering and one engineering mechanics student also signed up. Eight other students from various disciplines also have indicated a desire to do research in the field.

"This is truly an interdisciplinary course," Ho

said. So many majors — science, engineering management, engineering mechanics and electrical, mechanical and aerospace engineering — can benefit from it.

"The response has been very gratifying to me on a personal level," he added, "and it also shows that our students are aware of the importance of this new and dynamic field and that they feel they need to know something about it."

Recent industrial developments in America and throughout the world underscore the students' feelings on the subject.

"Industry already is making some use of robots," Ho said, "but the situation is nothing like it will be in 10 years. In that time we will have undergone a 'robot revolution' that may be more far-reaching in its consequences than the Industrial Revolution of a century ago."

"The world's robot population is expected to grow by about 35 percent a year over the next decade," he added, "and we'll also see the development of robots with greater intelligence and sensory capabilities. All this will have a major impact on the types of jobs that will be available."

To ensure that its students will be prepared for those

jobs, UMR currently is investigating several possibilities for obtaining a robot. Plans call for that robot to be integrated into UMR's new computer graphics system so that students will have the opportunity to do "hands-on" work in computer-aided manufacturing as well as computer-aided design.

"We'll be able to complement our classroom offerings with practical applications in the laboratory," Ho said.

TONIGHT'S MOVIE

The Great Film Series presents "Portrait of Theresa," at 7:30 p.m. in the ME Auditorium. Admission is \$2 or season ticket.

Anyone interested in cheerleading for football should come to an organizational meeting in the Ozark Room April 16 at 8 p.m. For more information contact Mary Essner at 364-3590 or John Minicky at 364-9792.

PHOTOGRAPHY CLUB

Photographers do it in the dark! The regular meeting of the UMR Photo Club will be held on Thursday, April 2nd, at 7:30 p.m. in room 125 of the Chemistry Bldg. A demonstration lecture on developing will follow the meeting for the benefit of beginners. Anyone interested in Photography is invited to attend. All regular members should attend in order to discuss plans for the fall semester. Anyone having a question can call Rick Harrison at 364-9906.

SATURDAY

APO SUPER WALK '81

APO Super Walk '81 will be held on Saturday, April 18th. The twenty kilometer event will begin at 9:00 a.m. at the Multi-Purpose Building and finish on Fraternity Row just in time for the opening of Greek Week. Individual prizes will be awarded for top money raisers. A trophy and a keg of Michelob will be awarded to the organization that raises the most money. For information and sponsor forms, call Greg Sedrick at 364-8115 or Steve Brophy at 364-9792.

TUESDAY

BREWING SEMINAR

Anheuser-Busch will give a seminar on the art of brewing beer, on Tuesday, April 14. A slide presentation will be shown. Place and time to be announced. Watch for publicity! Sponsored by Student Council.

PHI KAPPA PHI BANQUET

The spring initiation of students into the honor society of Phi Kappa Phi will take place on April 14, 1981. All students who are currently members of Phi Kappa Phi are invited to the spring banquet, which will begin at 6:30 p.m. in Centennial Hall East. Speaking at the banquet will be Prof. Sandra G. Harding, Visiting Professor in Philosophy from the University of Delaware, who will speak on the topic, "Why Be Educated?" The cost of attending the banquet is \$5.50 per person. Students wishing to attend the banquet should contact Dr. Linda Hughes, 231 H-SS, by April 12 (or call at 341-4637).

KAPPA MU EPSILON

The monthly meeting of K.M.E. will be held April 14 at 6:30 p.m. in Room 209 of the Math-Computer Science Building. All pledges and actives are invited to attend. A guest speaker will be presented. Refreshments will be served following the meeting.

WEDNESDAY

M.S.M. SPELUNKERS

The Spelunkers meet Wednesdays at 6:15 in 305 Norwood Hall. Plans for the Spring Outing will be discussed the Wednesday after Spring Break.

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri at Rolla. It is published weekly at Rolla, Missouri. The Missouri Miner features activities of the students and faculty of UMR.

WESLEY

Jerry Chappeau, a teacher at McCluer North High School, will share the importance of a daily quiet time with the Lord. The talk begins at 6:00 p.m. Wednesday, April 15th at the Wesley Foundation. The Wesley Foundation is located across the street from the Rolla Post Office. Everyone is invited.

NODAY

PREREGISTRATION DETAILS

Preregistration for currently enrolled students who will be returning for the 1981 summer session and/or the 1981 fall semester will begin April 27 and end May 1.

Students should obtain their preregistration materials and schedule of classes from the Registrar's Office starting April 23. Detailed information regarding preregistration will be found in the front section of the fall schedule of classes. Students who preregister will be given an opportunity to pay fees prior to regular registration.

BUILDING THE SCENES ACTIVITIES

STAGE HANDS NEEDED

Stage hands needed to help run UMR Theatre Program's play Dark of the Moon. You help needed every night beginning Sunday, April 12 through Saturday night April 18. Production party following April 18 performance. See M. Boston, Harris Hall. G-9, or call 341-4185.

Greek Week

Olympics and 'Woman of the Year' planned

As Greek Week draws near the UMR Panhellenic is working hard to make the 1981 Greek celebration a success for everyone.

This year Panhellenic is sponsoring a barbecue with a pyramid building contest, Frisbee contest, and car cram being held there. Thursday of Greek Week is the famous UMR Mini-Olympics to be held at Beta Sigma Psi with a keg of Rolla-style ambrosia awarded to the winning team.

Panhellenic is also sponsoring a "Panhellenic Woman of the Year" award to be given for the first time this year. The recipient of the award will be announced at the IFC banquet during Greek Week. Nominees for this honor were: Marvis Ridgely, Cindi Monds, and Melinda Bise from Chi

Omega; Marilyn Kolbet, Cindy Cooper, and Beth Spencer from Kappa Delta, and Laura Plyler, Susan Remley, and Rose Emhoff from Zeta Tau Alpha. The finalists have been selected and are Cindy Cooper, Beth Spencer and Rose Emhoff.

More details about the events for Greek Week will be published in the next issue of the Miner.

Student Union Board of University of Missouri-Rolla sponsors Maynard Ferguson concert.

Maynard Ferguson will appear in concert at the University of Missouri-Rolla on Saturday, April 25, 1981. This event is sponsored by the Student Union Board and will be held in the Multi-Purpose Building at 8 p.m.

Tickets are limited and will be free. Beginning April 13 through April 17, tickets will be available only to UMR students, staff and faculty with a limit of two per person.

Tickets will be available in the Student Union Board Office, 115 Program Office (in the breezeway), from 9:30 a.m.-1:30 p.m.

There are no reserved seats. If any tickets are still available to the general public, they will be issued beginning Monday, April 20. No phone reservations will be accepted.

Out-of-town mail orders will be opened and honored, if tickets are still available, on April 20 and April 21 only. Tickets are limited to two per person and a self-

addressed stamped envelope must accompany each request or the order cannot be accepted. Address to Student Union Board, 204B Rolla Building, University of Missouri-Rolla, Rolla, Missouri 65401.

All tickets are issued on a "first-come, first-served" basis so there is no guarantee that mail orders can be filled and none will be filled until April 20 after tickets are issued to UMR personnel.

DeKock appointed acting chairman

SOURCE: OPI

Dr. Arlan DeKock, an associate professor in the University of Missouri-Rolla's department of computer science, has been appointed acting chairman of the department effective Sept. 1.

DeKock will replace Dr. John Hamblen who has resigned as chairman to return to full-time teaching and research at that time.

In announcing the appointment, Dr. Marvin Barker, dean of the College of Arts and Sciences, said, "Dr. DeKock was selected after consultation with the computer science faculty. He certainly has the qualifications for the position and I look forward to working with him next year."

DeKock, who holds a B.A. degree from Central College (Pella, Iowa) and M.A. and Ph.D. degrees from the University of South Dakota, has been on the UMR faculty since 1968. He held appointments on the UMR computer science and psychology faculties and as research analyst and head of institutional research before

becoming a full-time member of the computer science faculty in 1973. DeKock has had summer research appointments with NASA's Goddard Space Flight Laboratories in Maryland and was director of Data Base Development and Implementation for the state of Missouri Department of Social Services

while on leave in 1975-76.

His areas of specialization are computer data base systems, computer language systems design, and artificial intelligence.

DeKock has received seven outstanding teacher awards, including three AMOCO Foundation awards.

He is adviser for the UMR student computer

programming team which recently placed first in the Fifth Annual National Scholastic Programming Contest. He was founder and is adviser of the UMR chapter of Upsilon Pi Epsilon, computer science scholarship fraternity, and has served as the fraternity's national president. He is also scholarship adviser for Acacia social fraternity.

DeKock is the author of numerous publications and has made many technical papers and workshop presentations. During 1978-79 he was a national lecturer for the Association for Computing Machinery.

He is a member of the Association for Computing Machinery and the Association for Educational Data Systems.

Financial aid:

Applications process frozen

By HELEN CORDES

WASHINGTON, D.C. (CPS) — In an attempt to make families contribute more to their offsprings' college education, the Reagan administration has imposed an unprecedented temporary freeze on processing federal financial aid applications.

Last week Secretary of Education Terrel Bell announced the government wanted to change certain eligibility requirements for Pell Grants (formerly Basic Educational Opportunity Grants), and would not process any more applications for the grants until Congress voted on the change in requirements.

Congress has until April 28 to react to the proposed rules changes, though Rep. Peter

Peyser (D-N.Y.) of the House Postsecondary Education Subcommittee hopes to debate the proposals sooner than that to minimize the freeze's impact.

If the requirements are changed as Bell requested, "maybe 100,000 students" would be knocked out of the Pell Grant program, estimates Skee Smith of the U.S. Department of Education's Student Special Services office.

In the meantime, the freeze effectively stops the awarding of all federal financial aid for the moment because Pell Grants are used to determine students' eligibility for other forms of financial aid, says Dallas Martin of the National Association of Student Financial Aid Administrators.

The freeze is "a new procedure," concedes a House education committee staffer. "Normally when final regulations are printed (as Pell Grant regulations were printed in January), they are not withdrawn for reconsideration."

The House of Representatives is expected to conduct hearings into the legality of the administration's maneuver.

The administration's aim is to change the way families figure their eligibility for Pell Grants, and to make families contribute more toward their kids' education.

At present, a family's eligibility for aid is calculated by subtracting certain living expenses from total family income. Regulations say families can increase their living expenses estimates by 12½

percent to cover inflation.

The administration, however, wants to scrap the 12½ percent increase, thus saving \$183 million in the next fiscal year.

By figuring eligibility the administration's way, more families would show higher net incomes, and thus become ineligible for Pell Grants.

Secretary Bell also wants to set upper limits on how much a student can deduct from his or her income estimate. New regulations would set maximum amounts on how much a student could spend — at least for purposes of determining eligibility for Pell Grants — for housing, books and related school expenses.

Talk about changing the rules of getting Pell Grants, Martin says, is affecting other federal financial aid programs. Administration promises to reform the Guaranteed Student Loan program are "frightening" some banks, which are waiting to make student loans until the issues are settled.

Attic Lounge to be converted to living space

By BARBARA YAEGER

Students will soon be living in what was formerly known as the Attic Lounge. Donald Castleman and James McKibben, owners of the building, are remodeling it into rooms which will be available to students this summer.

The remodeling, which should be completed within a month, has converted the former bar into seventeen dorm-like rooms. Plans are to have three of the rooms accommodating two people with the remaining fourteen accommodating three persons, a total of forty-five people. All rooms will be air conditioned and fully carpeted. Each room will also have its own bathroom complete with shower. In addition, desks and twin or bunk beds will be provided. Cable TV hook-ups and private phones will be available to those residents who want them.

A small lounge is also being provided for the residents. Candy, cigarette and soda machines will be placed in the building. A janitor will be hired to maintain the building. He will clear the building once a week, including vacuuming each room and cleaning the bathrooms. In addition, one student will be appointed manager and will be responsible for keeping the building in order. He will receive his room free.

At this time it is not clear whether Castleman and McKibben will lease the building to the University in the same manner that motel space is currently leased, or if they will lease directly to students themselves. Either way, rates for the rooms will be comparable to the cost of the Thomas Jefferson dormitory without a food contract. The rooms should be a comfortable and convenient place for students to live.

Visiting Professor Harding to deliver philosophy seminar

Dr. Sandra Harding, associate professor of philosophy at the University of Delaware, will be a visiting professor of philosophy at the University of Missouri-Rolla April 13-17.

Dr. Harding will deliver two public lectures, speak to several philosophy classes, give seminars for the philosophy faculty and consult informally with students and faculty. She will also deliver the banquet address, "Why Be Educated?" at the initiation banquet of Phi Kappa Phi, national honor society April 14.

The public lectures are: "Social Knowledge and Social Experience," at 3:30 p.m. Tuesday, April 14, in the Ozark Room, University

Center-East, and "Feminism and Scientific Inquiry" at 7 p.m. Wednesday, April 15, in the Missouri Room, University Center-East. Everyone is invited and there is no admission charge.

Dr. Harding has edited or co-edited three collections of essays, including the forthcoming "Discovering Reality: Feminist Perspectives on Epistemology, Metaphysics, Methodology and Philosophy of Science." Previously published volumes are "Can Theories

Be Refuted? Essays on the Duhem-Quine Thesis" and "The Human Sciences in Human Perspective."

In addition to extensive publication, Dr. Harding has delivered papers at more than 50 conferences, has organized and chaired a dozen symposia, and has been the recipient of numerous fellowships and grants.

She holds a B.A. degree from Douglass College and M.S. and Ph.D. degrees from the University of New York.

5500 high school students:

UMR to host festival

SOURCE: OPI

About 5,500 high school students (grades 9-12) from 30 schools are expected to attend the South Central District Music Festival at the University of Missouri-Rolla Thursday, Friday and Saturday, April 2-4.

Students participating in instrumental and vocal solo, small ensemble and small vocal group categories will perform and receive ratings on Thursday and Friday. Bands and choirs will per-

form and be judged on Saturday.

Winners of a I rating in the individual and small ensemble categories are eligible to enter state-level competition later this spring. Eight judges — from a list approved by the Missouri State High School Activities Association, will rate the performances.

Director of the District Festival in Rolla is Dr. David Oakley, professor of music, who will be assisted by student members of the

UMR honorary music fraternity and sorority, Kappa Kappa Psi and Tau Beta Sigma.

High schools participating in the event are: Alton, Cabool, Camdenton, Climax Springs, Couch, Crocker, Dixon, Eldon, Houston, Iberia, Laquey (Pulaski County), Licking, Mack's Creek, Liberty (Mountain View and Birch Tree), Newburg, Plato, Richland, Rolla, John F. Hodge (St. James), Salem, School of the Osage (Lake Ozark), Stoutland, Summersville, Thayer, Tuscumbia, Viburnum, Waynesville, West Plains, Willow Springs, and Winona.

Handicapped students:

Fed. Programs hang in balance

College Press Service

The fate of all federal college programs for helping handicapped students will be in the balance when the U.S. Supreme Court decides the case of deaf student Walter Camenisch, who wants the University of Texas to pay \$1,245 a year for his sign language interpreter.

The court two weeks ago gave the U.S. Department of Justice permission to defend Camenisch.

Texas claims that schools are not required to spend money to accommodate handicapped students. That view, if validated in court, would change the standard interpretation of the 1973 Rehabilitation Act, the high court said.

Under Section 504 of that act, federally-funded schools can't discriminate against "otherwise qualified" handicapped persons. The 5th U.S. Court of Appeals decided last fall that Camenisch is entitled to a free interpreter under Section 504, but Texas disagrees.

"An institution is not required to take any affirmative compliance steps by accepting federal funds,"

reads the school's petition for high court review.

Should the Supreme Court accept that view, warns the Justice Department, "it would signal the end of all compulsory measures to aid the handicapped," including building ramps and

modifying bathrooms for wheelchairs.

Additionally, Justice reminded Texas that it is free to forgo federal funds if it feels that accompanying regulations are too burdensome.

HAVE A PARTY ON US!

That's right, Fred Voss and Jos. Schlitz Brewing Co. will provide an all expense paid party consisting of:

15½ Barrels of Schlitz AND Country Western Band

Here's how to win:

Plan and have a Cerebral Palsy fund raising event of your choice between now and October 30, 1981.

Present the proceeds collected from your event to Fred, the local Schlitz Distributor. Fred will combine all donation for a 100% contribution to our local Cerebral Palsy School. You may sponsor as many events as you like.

The college fraternity, organization, or sorority that contributes the greatest amount by October 30, 1981 wins the party. It's that easy! The winner will be announced on November 2, 1981 and the party will be held some time in November. To enter your organization or request additional information please contact Fred at 364-3676.

Alpha Phi Omega

Super Walk Saturday

SUBMITTED BY A.P.O.

Alpha Phi Omega's Super Walk '81 is drawing near and will be held on Saturday, April 18th. Proceeds from the walk will go to the Cystic Fibrosis Foundation to help combat cystic fibrosis. The twenty kilometer walk is scheduled to begin at 9:00 a.m. at the multi-purpose building and end on

fraternity row just before the opening of Greek Week.

Prizes for the event include T-shirts for anyone raising \$25 or more and jogging shorts for \$50 or more. A car stereo, a ten speed bike, and a black and white TV will be distributed among the top three money raisers. A trophy and a keg of Michelob will be awarded to the organization that

raises the most money. Additional prizes will be given away for an Easter egg hunt and other games played along the route.

We appreciate and need your support for Super Walk '81. Sponsor packets can be picked up at the candy counter in the Student Union or can be obtained by calling Greg Sedrick at 364-8115 or Steve Brophy at 364-9792.

UM budget considerations get public hearing at Rolla

A public hearing on the University of Missouri-Rolla's state appropriations request for the 1982-83 academic year will be held from 9 to 11 a.m. Monday, April 20, in the Mark Twain Room, University Center-East.

The request will be submitted by April 1 to the University of Missouri central administration as part of the total UM request to the state legislature next fall. UM President James C. Olson and UMR Chancellor Joseph M. Marchello will be among those present.

The hearing will give students, faculty, staff and the general public an opportunity to ask questions and make comments on all

types of budget considerations.

The UMR hearing is the first of the public hearings to be held on each of the UM campuses. They will be held at UMSL that afternoon, and at Columbia and Kansas City on April 21.

features a
PHOTOGRAPHY CONTEST

Sponsored by

POSTUM
GRAIN BEVERAGE

Natural Like the

Great Outdoors!

To dramatize the need for more — and better — hiking trails, hikers are currently walking the 4,500 mile route from San Francisco to Washington, D.C. Why not discover Postum instant grain beverage while you rediscover America? Capture our country's beauty on film and if your entry is selected as a winner you can win one of the following prizes:

1st Prize:
(10 to be awarded
one per state)

Top quality goose down
sleeping bag with a
maximum retail value of \$175.

2nd Prize:
(10 to be awarded
one per state)

Top quality backpack, your
choice of style, color, size with
a maximum retail value of \$80.

3rd Prize:
(10 to be awarded
one per state)

Camper's cooking set with a
maximum retail value of \$50.

GRAND PRIZE:
(1 to be awarded)

Your choice of a 35mm
SLR camera with a maximum
retail value of \$500.

Here is how to enter:

1. Take a snapshot of a naturalistic setting. Your snapshot may depict any element(s) of a naturalistic setting, however, human beings cannot be depicted in your snapshot. Your picture may be taken with any brand of camera, may be a color or black/white print no larger than 8" x 10". Do not submit contact sheets, negatives, slides or transparencies. All entries become the exclusive property of General Foods Corporation and NONE WILL BE RETURNED. Your entry in this contest constitutes permission for General Foods Corporation to use your photograph in any advertising, publicity or promotion events of the Company without further consideration or payment to you.
2. On a plain piece of 3" x 5" paper, hand print your name, address, and mail it with your snapshot along with the location of the photo view and a label from jar of POSTUM® instant grain beverage to POSTUM® "HikaNation" photo contest, P.O. Box 9446, Blair, Nebraska 68009. You may enter as often as you wish, but each entry must be mailed separately. Each entry envelope must note on its face the name of the state where the photo was taken. This contest is open only to residents, eighteen years of age or older at the time of entry, of the following states: Utah, Colorado, Kansas, Oklahoma, Arkansas, Missouri, Illinois, Kentucky, Virginia, and West Virginia. You must be a resident of the state where your photo submission was taken.
3. Entries received will be judged under the supervision of the D. L. Blair Corporation, an independent judging organization, whose decisions are final, based on the following criteria: visual effectiveness (appeal, creativity, originality) — 40%; appropriateness of subject matter to naturalistic theme — 40%; technical ability — 20%. All photos must have been taken after June 1, 1980.
4. All entries must be received by June 15, 1981. All state winners and the grand prize winner will be announced on July 4, 1981. There will be one grand prize winner awarded from all entries received. There are ten first prize winners (one for each state), ten second prize winners (one for each state), and ten third prize winners (one for each state). Taxes on the prizes are the sole responsibility of the prize winner. No substitution of prizes is permitted. Limit one prize per family. All prizes will be awarded in case of a tie, duplicate prizes will be awarded.
5. This contest is void where prohibited by law. Professional photographers, employees of General Foods Corporation, its affiliates, subsidiaries, advertising agencies, the employees of D. L. Blair Corporation, the employees of Backpacker Magazine, the employees of Carl Byoir & Associates, the employees of the American Hiking Society, and the families of each are not eligible. All Federal, State and local laws and regulations apply to this contest.

HikaNation is co-sponsored by the American Hiking Society and the Department of the Interior. Postum is a registered trademark of General Foods Corp., White Plains, NY 10625.

Students specify dream car characteristics

Submitted By
NANCY JONES

The eighth Student Opinion Poll was held Tuesday, March 24, with 703 students participating (12.5% of the UMR student population).

Poll results:

1) Do you think the U.S. should send military personnel to El Salvador?

Yes — 29%

No — 68%

A large majority of UMR

students oppose sending U.S. military personnel to El Salvador. A couple of people indicated that their answer would vary depending on how many personnel were involved.

2) Do you think there should be a constitutional amendment prohibiting federal deficit spending?

Yes — 38%

No — 60%

3) Would you take a Keller Plan class if the program

were expanded to include more courses?

Yes — 47%

No — 43%

Although a small majority said they would take a Keller Plan class if available, quite a few students did not know what the Keller Plan was.

This program offers independent study classes such as statics, dynamics, physics II and chemistry II. The only course available at UMR now is statics. The material is divided into 14 units. Each unit has a pass/fail test which can be

taken up to four times. All of the statics must be correct to pass. Last semester the Keller section ranked second out of 17 sections on the statics departmental final so the program seems to be effective.

4) If the student loan program is cut as currently projected, will the cutback affect you?

Yes — 52%

No — 48%

5) Do you think studying the Bible has practical, everyday applications?

Yes — 75%

No — 23%

6) Do you think any other books have authority equal to that of the Bible?

Yes — 40%

No — 55%

7) What is your dream car?

General

Porsche — 14.5%

Mercedes — 14.5%

Corvette — 12.9%

Datsun — 9.5%

Mazda — 5.9%

Ferrari — 4.8%

Rolls Royce — 4.1%

Specific

Datsun 280-ZX — 7.9%

Mercedes 450 SL — 4.8%

Mazda RX7 — 5.0%

Other than cars currently

on the market, by combining suggestions we came up with the UMR dream car: one that is paid for, doesn't use gas, won't rust, and runs.

The Student Opinion Poll is held every Tuesday from 8:30 a.m. to 3:30 p.m. either at the Hockey Puck or in the U. Center-West lobby. It is sponsored by the Miner and the Baptist Student Union for all interested students. Any campus organization with questions of particular interest should call 364-3354.

"Your order sir?"

A critics twilight zone

By DAVID WILLIAMS

He entered the restaurant quietly, and sat at a corner booth in the rear. He was dressed simply: dark suit, nondescript tie, and dull black shoes. Featureless and expressionless, this man was imminently forgettable.

He was a "critic." Not of motion pictures, nor of literature. He was a critic of cuisine, a taste tester, an "excellent food" finder whose weekly syndicated columns won him great acclaim throughout the nation for his superior taste. His travels had taken him to some of the best eating establishments in the world.

And he was bored.

Tonight it was Antoine's. He yawned. The best veal parmesan in the city. He was not impressed. He looked up, and a waiter was immediately by his side.

"Just once," he thought wearily, "I'd like to see a little imperfection. An overcooked filet of sole, a warm glass of white wine, a singed crepe, a less-than-flawless performance by a waiter..."

Robert Dubois, age fifty-seven. A man so intent upon eating only the finest, he had become, apparently, too successful. But he is about to

discover that the greatest eating pleasures are not always found in the best restaurants, where one can only order the finest food. A discovery that can only be made possible, in

"THE TWILIGHT ZONE"

His gaze shifted from menu to waiter.

"Excuse me," he said.

"Your order, sir? Shall I come back?"

"No, oh no ... I'll have the veal parmesan. Escargots, please, to begin with."

The waiter left silently, returning precisely one minute later with the appetizer.

Robert stared at the dish. Utterly exquisite, he thought. Unbelievably delicious, too, no doubt.

He tried one. It was scrumptious, of course, and

No it's not.

What?

Horrid. Abominable. This was the worse escargots he had ever had. Gut-wrenching, stomach-turning. He tried another. Worse. Greasy, undercooked, blah. He smiled, for the first time that evening. He tried another, and another, quickly gaining momentum. The little snails were gone quickly.

He began to transform into

a new man, visibly. Color returned to his cheeks, his eyes began to take on that "special something," even his clothes came to life.

"Is everything all right, sir?"

Yes, yes, he wanted to shout! It's wonderfully terrible, beautifully inedible!

"Just fine, thank you," he said instead.

The waiter returned with the main course. Robert looked on, eagerly, as the food was being set into place. As the waiter left, he cut off a small piece of the veal and chewed it slowly, experimentally. He waited. He judged.

Texture: grainy. Sauce: runny. Taste: indescribably bland.

Elated, he finished the meal, savoring each bite, happier than he had been in a long, long time.

It was simple, he thought. Why strive for exquisite food? Why not the worst, the bottom of the barrel, the absolute pits? Tonight Antoine's. Tomorrow, the world.

He grinned, smiled, and then began to chuckle, as an inspiration came to mind.

Tomorrow, he decided, he would be eating at Rael Cafeteria, Rolla, Missouri

Come eat at Antoine's; the worst, the bottom of the barrel, and the absolute pits! The "twilight zone" of cuisine.

Be a camp counselor

Spend a summer with kids

Are you interested in spending a summer with children? Do you want to enjoy the out-of-doors and help children at the same time? Have you considered being a camp counselor?

In the Missouri Valley Section of the American Camping Association there are many excellent day and resident camps. These camps are located in Kansas and Western Missouri. A camp site that is ACA accredited means it has met high standards in the areas of site, administration, personnel, program, and other specific activities.

The Missouri Valley Section is offering a spring workshop for all interested in camping. The workshop

will be held May 15-17 near Parkville, Missouri. Session includes: Basic Acclimatization Training, Outdoor Living Skills Sampler, and Camper Behavior Management.

For more information on

the Spring Workshop or American Camping Association Camps in this area contact:

KMNR takes a break

Smoke rises and then wafts away leaving a figure standing where moments before there was nothing. Silhouetted by shimmering light a low vibration escapes and the light changes its intensity. It seemingly communicates by electromagnetic pulses. But no, it dims and draws on itself and then with one final burst

of color the shape becomes a man. The people who have been privileged to witness this spectacle start to advance, wanting to touch this god-like apparition. For they know who this person is. For they have seen this type of person before. Yes, it is another of that breed set apart from ordinary man. It is a KMNR disc jockey. Yes,

but this is but a peek into the future for I fear that the people of KMNR will be withdrawing from the airwaves for the next week so that they may renew their powers and once again deliver the only sounds in Rolla worth listening to. So until we burst forth on the airwaves, we wish you a pleasant break. Sarge

God Emperor of Dune

GOD EMPEROR OF DUNE is Leto's story—a story that begins 3500 years after the trilogy ends. Leto, now known as Leto II, the God Emperor of Dune, is no longer human. He has traded his humanity for virtual immortality, but to

do so has undergone an almost-complete transformation into the magnificent and enormous sandworm of Dune. He must live to guide the human race, for without him they will go horribly astray. Will he succeed, or will his awesome sacrifice have been in vain? With the remarkable storytelling abilities and mind-grabbing concepts that have made him one of the most beloved writers of the past decade, Frank Herbert has written his next bestseller.

Ford is a four letter word

By AL OAKES

Who is this Mary Ford?
Why is she on the staff?
Could she have been so bored,
to want to make us laugh?

At this she's not succeeding.
She is not on the ball.
No one's even reading,
her articles at all!

You censor all your writer's lines,
to make the paper clean.
'Cause it's Marilyn's and your behinds,
that get chewed on by the Dean!

Mary always gets her way,
whenever Al Oakes writes.
If it's not the proper thing to say,
it's removed and she delights.

When sororities get attention,
little do they know.
It's not KD or Zeta mentioned,
but probably Chi-O!

On certain topics Mary frowns,
it gives her belly aches.
Was it the articles that got her down?
Or those funny pills she takes.

But let's be solemn for a bit,
so I don't run out of room.
'Cause when she starts to edit this,
my lines will all be doomed.

This poem might get pretty long,
'cause there's an awful lot to say.
About the girl whose paper's wrong,
because it's run this way.

If she would leave my lines intact,
Joe Miner would be glad.
You'd hear his story fact by fact,
'bout all the girls he's had.

But Mary don't believe in sex,
Because she never had it.
But soon she'll be Rob Telker's ex,
and he won't care one bit.

Don't go away there's more to hear,
it hasn't all been said.

If Mary has a little beer,
she's awful bad in bed!

The previous line might surprise you,
but don't spread it around.
I can assure you it's all true,
with evidence I've found.

When she lays out the Features Section,
she labors all day long.
In the room there's heat convection,
when Koenig says she's wrong!

One more thing about this Mary.
She kisses like a trout!
That's not Mary, that was Sherry,
this stanza was about!

So go ahead and get real pissed,
get madder by the hour.
If indeed you think we missed,
then back to Beckenhower.
That line above does not belong.

So I'll get back to Ford.
I heard she likes to bong,
whenever she gets bored.

Has Mary ever missed a class?
I don't think she has yet.
She likes to kiss the teacher's ass,
a guaranteed sure bet!

If this poem gets any longer
The readers will all quit.
And if the words get any stronger,
Mari-lyn will just cut it.

Come on Marilyn, leave it alone.
You know it's all in fun.
If all her qualities are shown,
I think my job is done.

But really Mary, we all love you,
and none of this is true.
You really are a credit to us,
Don't thank me, thank you.

St. John, Fry, Nower

Hurlers lead Miners

By DAN BROWN

The UMR baseball team finally broke out of their early season slump. They won three of the four games played last week. The Miners romped Lindenwood 7-2 and 6-1 on Wednesday and defeated Maryville 9-2 after dropping the first game of a double-header (6-5) on Friday.

Roland St. John continued to throw well. He started his first game against Maryville and walked away victorious. He pitched seven innings striking out five and allowing one earned run on four hits. Junior John Fry also looked impressive. In

his first appearance for the Miners he gave up only one run to Lindenwood in seven innings and posted a win. Dan Nower claimed UMR's other win over Lindenwood. He gave up two runs on three hits in five innings before giving way to reliever Steve Phegley. Phegley held Lindenwood scoreless for the last two innings.

The Miners broke out of the slump with a barrage of hits. In the four games UMR had 42 hits in 118 at bats, a whopping .356 team batting average. They managed to drive 27 runners across home plate while allowing the opponents only 10 runs on 18 hits.

Steve Garbs, Craig Thomas, Rick Fuerman and Tom Murphy accounted for 22 of the Miners' hits. Garbs had six hits in sixteen trips, including two doubles. He drove in four runs and scored four times. Thomas knocked out 5 hits in only 7 at bats. He scored four of the five times he reached first. Murphy reached first safely six times in 15 plate appearances. He crossed home six times and batted in three baserunners. Fuerman had five hits in eleven at bats. Kevin Havener, Neil Haberberger, and D. J. Stegall also had good performances. Haberberger and Stegall each homered against Lindenwood.

Both tennis teams suffer road losses

By DOUG MOSLEY

The men's and women's tennis teams suffered at the hands of defeat this weekend. The women's team was downed 8-1 by Southeast Missouri State. The men also lost to SEMO, and lost three straight matches in the Northeast Missouri State Tennis Tourney.

In the women's match, Coach Paul McNally was only able to take three

players to Cape Girardeau with him as the other team members were beleaguered by classroom commitments. Lorna Platt and Julie Veissman were able to win a doubles match.

On Thursday, the men's team also played at SEMO and came away on the short end of a 9-0 thrashing. They then traveled to Kirksville, Mo., for a weekend tennis tournament and again met with ill-fate.

In their first match, they only won one as Western Illinois University defeated the Miners, 8-1. The next two matches were total washouts as they fell to the host team, 9-0, and lost to SEMO again 9-0.

The men's next match is Friday at 2:00 versus Evangel College at home. The women's next match is also Friday at 2:00 versus Evangel at home.

Trackmen shine, Lux wins 400

By DAN BROWN

The UMR track team started off the outdoor season with a bang. The Miners competed in the Western Kentucky University Hilltopper Invitational last Saturday.

Seven other teams made the trip to Bowling Green, Kentucky. No team scores were kept.

The Miners placed in eleven of the eighteen track events. The only winner for the Miners was Rick Lux.

Rick won the 400-meter in a record time of 47.90 seconds. Rick also anchored the 400-meter relay team of Randy Shed, Roddy Rogers, and Chris Henry which finished third.

Randy Shed had his best leap ever in both the long jump and the triple jump. He finished fourth in the long jump with a leap of 22'2 3/4"

and fifth in the triple jump with 46'7 3/4". Another long jumper, Tom Apel, also had his best performance. He finished fifth with a distance of 21'11 3/4".

Tim Shoeneker had a personal best in the 400-meter dash. His time of 51.01 seconds earned him a fifth place finish. Tim also

combined with Roddy Rogers, Dave Millman, and Chris Henry to capture third in the 1,600-meter relay.

The Miners also did well in the distance events. In the 10,000-meter (6.2 miles)

UMR placed two in the first six finishers. Jim Bullard took fourth in his first 10,000-meter on the track while veteran runner Brent Haefner crossed the line in

sixth. Mark Stucky continued his dominance of the middle distance events. He placed third in the 1,500-meter with a 4:02. Mark

came back in the 5,000-meter run but his 16:20 was not fast enough to place. Joe Henze also ran well in the 5,000-meter race.

Bob Benson and Doug Keithly represented UMR's field event men. Benson launched the javelin for a distance of 161'4" for sixth in the event and managed to clear 13' in the pole vault for fourth. Keithly was competing in his first meet of the year. In fact, this was Keithly's first discus competition in over two years. His toss of 148'8" gave him fifth in the discus.

The UMR track team will be competing in the Westminster Invitational this Saturday and will be at the Lincoln Invitational the Monday after spring break.

Softball nearing end

By Kevin Lyons

Intramurals will be interrupted over the spring break but when we return to softball, badminton and horseshoes will all be coming to an end.

Softball will end the regular season on April 14 and it looks like the playoffs will not be decided until the final inning as the standings show just how close each league is.

Badminton is scheduled to possibly go through the 16th of April. The winners' bracket for the women's singles show just four teams left. They are ZTA, TJ, KD and WHA. The women's doubles also have four teams remaining: ABS, The

Stardusters, ZTA and Newman.

In men's singles the undefeated teams are Lambda Chi, TJ, Wesley and Sig Ep. Doubles show Pi KA, RHA, TKE and Sig Ep still remaining.

While men's horseshoes

has just gotten under way women's singles and doubles are down to two teams in the winners' bracket. The singles teams are Newman and The Stardusters, while the doubles are TJ and D of N.
